

GLOBENEWSWIRE NEWSFEED

Enhance Your News Content with the GlobeNewswire Newsfeed

GlobeNewswire offers high-level targeting and efficiency in news distribution including earnings announcements and general press releases to investors, journalists, newswires, websites and business professionals worldwide. The extensive GlobeNewswire Newsfeed service allows information and news networks to receive public company news across all exchanges in real-time and free of charge.

UNIQUE CONTENT

Thousands of companies rely on GlobeNewswire to distribute their financial news to the news media, financial community, online news destinations and private audiences every day. All financial news releases distributed on GlobeNewswire are unique to us and are not accessible through any other newswire service. GlobeNewswire Newsfeed is available directly through a GlobeNewswire subscription, or through any of our specialized content partners.

NEWSFEED DELIVERY

GlobeNewswire can produce and format news release files in a variety of proprietary and standard formats such as ANPA, NITF and NewsML. The technical requirements and setup time required to integrate a direct newsfeed from GlobeNewswire into your web-portals or news platforms are quick and simple.

- > Customized newsfeeds are available by subject, industry, location, or stock exchange
- > GlobeNewswire Newsfeed is available directly from GlobeNewswire or our content partners upon request

GETTING STARTED

REGULATION FD (FAIR DISCLOSURE)

Regulatory changes often referred to as 'Reg FD', require issuing companies to release information about significant corporate developments to all investors simultaneously. This has dramatically increased the importance of corporate news releases, as they are the legal and effective disclosure point for corporate disclosure. GlobeNewswire is approved by the U.S. Securities and Exchange Commission as a Primary Information Provider to disseminate material news and information in compliance with SEC's Regulation FD.

The GlobeNewswire Newsfeed features

- > Original full-text corporate press releases for both public and private companies distributed throughout North America
- > Multimedia content such as photos and company logos to enrich company and market information
- > Financial tables in HTML format enhance functionality and increase usability of a traditional press release by allowing flexibility in formatting and on display. Wider financial tables are easy to read and prepared for conversion to excel format
- > Anchor text within text releases enhance search engine optimization and increase effectiveness in reaching targeted audiences
- > Press releases from private companies, government entities, and non-profit organizations
