THE MARKET CHANGE AGENT

We invented electronic trading 40 years ago. Electronic trading is emulated by every electronic equities exchange in the world, making the world's capital markets move faster, more efficiently and more transparently. That's why our global platform is the fastest on the planet and can handle more than 1M messages per second at sub-100 microsecond average speeds. We are the largest single liquidity pool for US equities and are the power behind 1 in 10 of the world's securities transactions.

TRUSTED TRADING TECHNOLOGY

You name it. We trade it. Our technology trades multiple asset classes including equities, ETFs, derivatives, debt, commodities, structured products, convertibles, fixed income, and warrants. We run the world's largest power derivatives exchange and one of Europe's major carbon markets.

70 exchanges in 50 countries trust our trading technology to power their markets – driving growth in emerging and developed economies. We also power 50 brokers in 35 countries and 6 regulators in 6 countries.

AWARD-WINNING DATA AND BENCHMARK INDEXES

The gold source. We offer powerful tools to millions of global users to make better-informed and more confident trading decisions via a reliable data feed with 99.999% uptime. The NASDAQ Stock Market® is the only exchange used as a financial benchmark index for the US markets. As an exchange company, NASDAQ OMX is the world's leading index provider with \$350B tied to our global indexes.

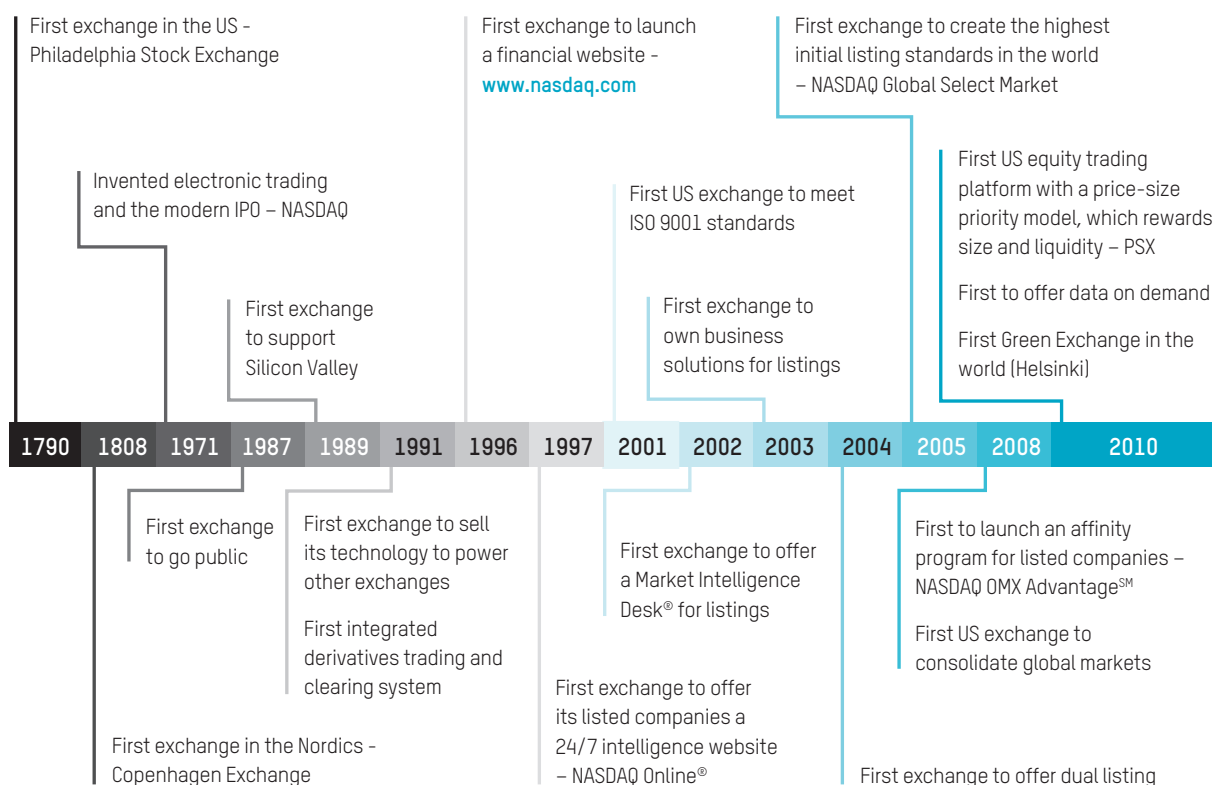

PROGRESSIVE LISTINGS

Our listed companies transform our planet. 71% of C-levels polled say that NASDAQ® is the exchange for innovation.* The NASDAQ Stock Market is home to 2 of the 3 largest US companies, Fortune's 3 of the top 5 World's Most Admired Brands and Fortune's 7 of the top 10 Fastest Growing Companies.
