New version of the NASDAQ OMX Nordic Member Rules (NMR 2.0) will enter into force on June 10, 2013 together with changes to NASDAQ OMX INET Nordic Market Model.

Changes to NMR
Based on discussions with its members, NASDAQ OMX Nordic enhances the routing logics to enable routing to several away markets in parallel. In order to level the playing field (also in the trading rules) between different types of members a general clause regarding requirement to make every effort to comply with the ESMA guidelines on systems and controls in an automated trading environment is added to the rules. A small clarification is also made to Chapter Market Segment Units in Funds in order to further accommodate to ESMA Guidelines (on ETFs and other UCITS issues).

Changes to NASDAQ OMX INET Nordic Market Model
Introduction of enhanced routing logics will be taken into account in the new NASDAQ OMX INET Nordic Market Model, version 2.17.

The NMR 2.0 and NASDAQ OMX INET Nordic Market Model, version 2.17 will be published on NASDAQ OMX Nordic’s Rules and Regulations webpage, http://www.nasdaqomx.com/listing/europe/rulesregulations/, at the latest on the effective date.
